49. (Amended) A soft, flexible polymeric composition comprising:

a polyolefin; and

at least [two] three styrene-butadiene-styrene block copolymers, each having a percentage by weight of styrene different than the other, in amounts sufficient to adjust the elasticity of the composition.

Claim 51 is amended as follows:

51. (Amended) The composition of claim [50] 49, wherein a first of said at least three block copolymers has about 29 percent by weight of styrene.

Claim 52 is amended as follows:

52. (Amended) The composition of claim [50] 49, wherein a second of at least three block copolymers has about 31 percent by weight of styrene.

Claim 53 is amended as follows:

53. (Amended) The composition of claim [50] 49, wherein a third of said at least three block copolymers has about 43 percent by weight of styrene.

Claim 54 is amended as follows:

54. (Amended) The composition of claim [50] 49, wherein each of said at least three block copolymers is present in an amount about 5.5 to about 16.6 percent by weight of the total weight of the composition.
